

## MrWiseGuyMC's Sky Cruiser

### Introduction:

- This is the second addition to my series of sky vehicles. The first one is the Sky Base which is a sky headquarters. This vehicle is like a fighter jet. It has weapons and can fly at speeds up to 500 mph. Hopefully you guys enjoy. I will be uploading other additions soon.

### Map Info:

- This is the cruiser. It's an amazing jet. It has 3 guns and a small jet thruster on the back. You can fit one person in it to control it. Hope you guys enjoy.
